

***Welcome to the 2<sup>nd</sup> Annual  
CMOD Canada Biomarker  
Meeting***

**Biomarkers and Personalized  
Medicine**

**CMOD: The International Partnership for Critical Markers of Disease is an international, non-profit, organization.**

**Mission: The mission of CMOD is to accelerate the identification, validation and appropriate application of biomarkers in cardiovascular and related diseases.**

**History: CMOD has been collaborating with leadership in government, academic, and private organizations worldwide since 2003 to share information about critical markers of disease and work toward issue resolution.**

**Goal: To work together with leaders in the healthcare community to create efficiencies toward improved patient healthcare.**

**This meeting has been organized by CMOD in collaboration with representatives from:**

**Health Canada (HC)**

**Canadian Institutes for Health Research (CIHR)**

**Center of Excellence in Personalized Medicine (CEPMED)**

**Canadian Atherosclerosis Imaging Network (CAIN)**

**Montreal Heart Institute Coordinating Center (MHICC)**

**....and other public and private research organizations**
